

2005
ANNUAL
REPORT

Everyone deserves a beautiful smile.

“By the age of 8, approximately 52 percent of children have experienced decay, and by the age of 17, dental decay affects 78 percent of children. Among low-income children, almost 50 percent of tooth decay remains untreated and may result in pain, dysfunction, underweight and poor appearance—problems that can greatly reduce a child’s capacity to succeed in the educational environment.”

—Centers for Disease Control and Prevention

CHILDREN MISS
50 MILLION HOURS OF
SCHOOL EACH YEAR
DUE TO DENTAL
PROBLEMS

OUR MISSION

Improve the lives of all Oregonians by funding community projects that render dental care services to the people of Oregon with an emphasis on children’s programs.

UNINSURED CHILDREN
ARE 2.5 TIMES LESS
LIKELY TO RECEIVE
DENTAL CARE

“Oral health is an essential and integral component of health throughout life. No one can be truly healthy unless he or she is free from the burden of oral and craniofacial diseases and conditions.”

—Centers for Disease Control and Prevention

TO OUR FRIENDS AND SUPPORTERS

In 2005, an editorial published in *The Oregonian* exposed what had been a silent crisis in Oregon for far too long: A growing number of families are unable to afford dental insurance and, as a result, instances of decay and infection are rising at an alarming rate. “If the number of families who get regular dental care keeps dropping ... expect the face of Oregon to grow more gap-toothed every year,” the editorial noted.

Ideally, proper dental care would begin at birth and continue throughout life. Unfortunately, poverty and other social circumstances often prevent children and adults from receiving adequate dental care. At the Oregon Dental Foundation (ODF), we help under-served communities receive the dental treatment they need.

In 2005, we pursued a variety of fundraising efforts to help provide the necessary financial support for our mission. Through the support of many thoughtful individuals and corporate partners, we were able raise approximately \$216,000, which represented an increase of 30 percent from 2004. Of that total amount, \$25,000 was contributed by proceeds from the second annual ODF “Give a Day for Dentistry” event, where dentists and non-dentists alike donate one day’s salary to the ODF. For the second year in a row, \$30,000 in matching grants were generously provided by The ODS Companies and by Ken and Joan Austin of A-dec. During 2005, we also hosted the first ODF golf tournament, which raised more than \$35,000.

Thanks to these donations, we were able to fund a greater number of worthy causes during the year than ever before. In all, 21 organizations received more than \$75,000 in funding. To increase our potential funding levels in the future, we plan to explore additional avenues for giving such as trusts, wills and annuities. In concert with the strong foundation of individual and corporate support we have established, we believe this strategy will position us well for future growth and success.

The Oregonian editorial also noted that too many people working to make ends meet don’t consider the potential impact of poor dental health “until they discover that their children’s teeth are quietly rotting.” With your continued support, we can ensure that fewer Oregon children—and many disadvantaged adults as well—are forced to endure what should be an avoidable experience.

Ken Berg, DMD
President

Karleanne Rogers
Executive Director

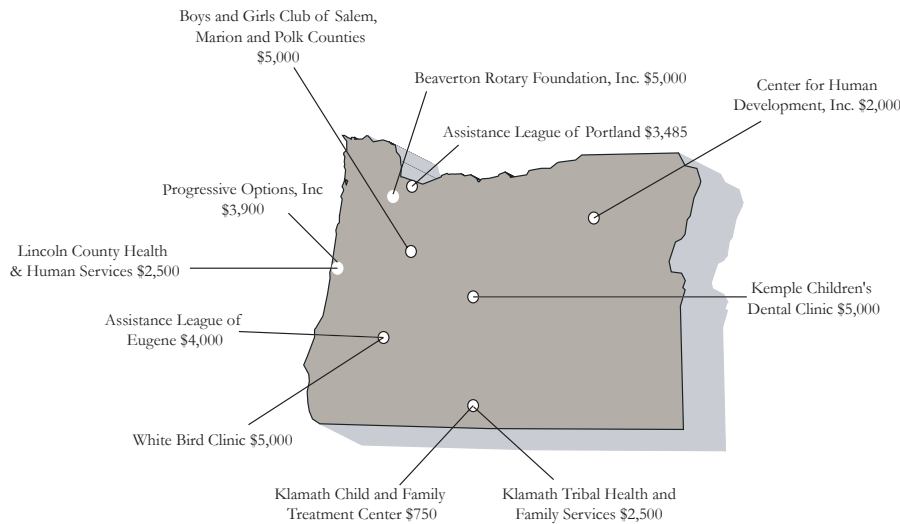

SUPPORTING DENTISTRY’S FUTURE

Providing enough skilled dental professionals to meet future demand is crucial to enabling Oregonians to receive the care they need. Thanks to a generous donation from The ODS Companies (ODS), we were able to establish a scholarship fund that will help advance dental education throughout Oregon in the years to come. ODS’ \$250,000 donation will be matched by the ODF to establish a \$500,000 scholarship fund. Approximately \$25,000 per year will be distributed from the fund to individuals wishing to pursue studies in any aspect of dentistry, including dental assisting, hygiene and lab technicians.

Pictured from left to right: Robert Gootce, Karleanne Rogers and Ken Berg, DMD.

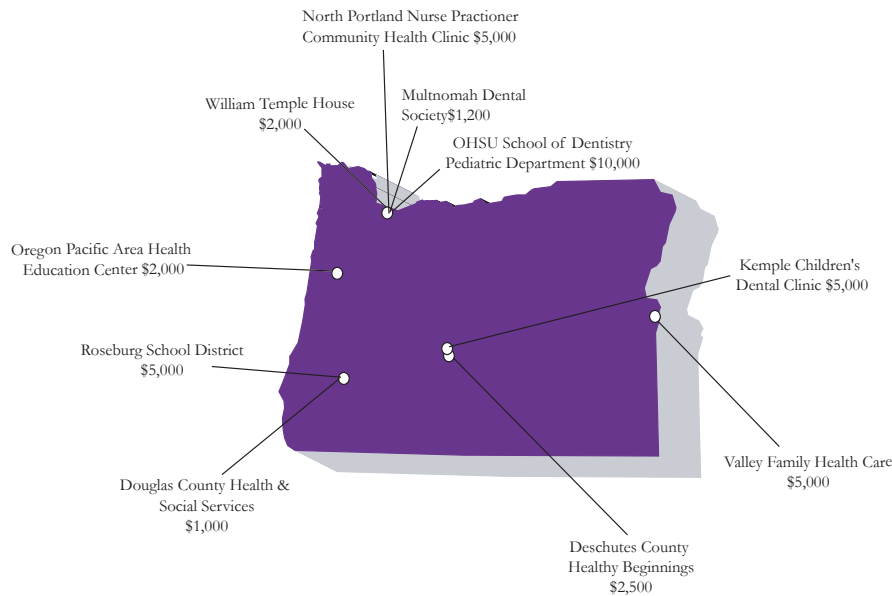

GRANTS

Spring 2005

During our first grant distribution period of the year, \$39,135 was donated to 11 worthy organizations throughout the state.

Fall 2005

Grants were allocated to 10 organizations, which received a total of \$38,700 in funding.

GRANT SPOTLIGHT: BEAVERTON ROTARY

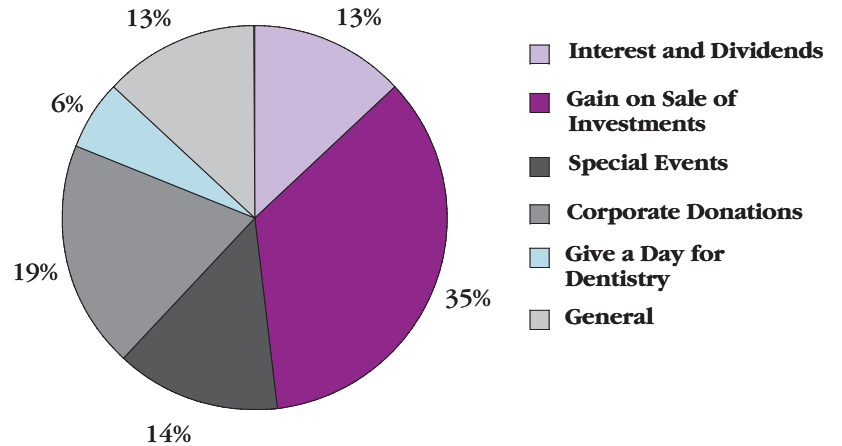

The Beaverton Rotary Dental Check/Dental Aid Program is an annual community service project of the Beaverton Rotary Club. The goal of the program, which targets low-income children in the Beaverton area, is to identify dental problems and help children establish effective oral hygiene habits so they can succeed in school. More than 212 children were screened in 2005. Of those participants, 89 were found to be in need of immediate dental treatment.

The Beaverton Rotary Dental Check/Dental Aid Program was the 2005 recipient of the ODF's Outstanding Dental Program Achievement Award. The award honors a community dental effort or educational program that addresses unmet needs in the community.

FINANCIAL REPORT

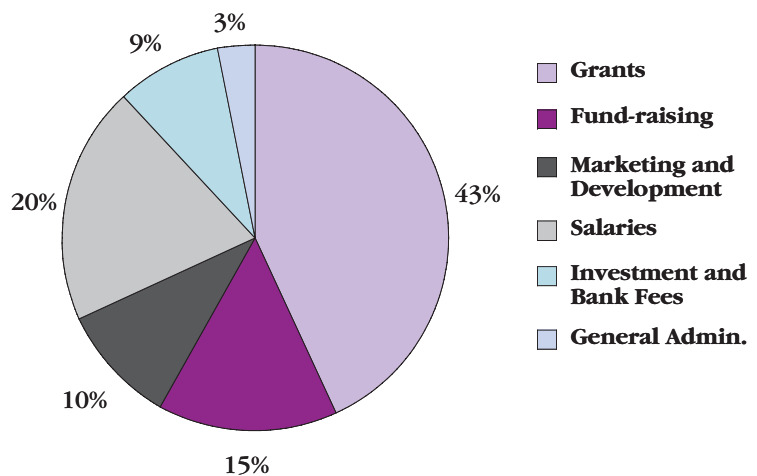

SOURCES OF REVENUE

2005 BOARD OF DIRECTORS

The ODF Board of Directors is comprised of Oregon dentists and members of the business community. This group of caring, talented individuals is directly responsible for the growth and success the ODF has experienced throughout the years.

We would like to take this opportunity to thank our board members for their commitment to making dental care available to those in need.

YOUR SUPPORT MAKES A DIFFERENCE

“Those who suffer the worst oral health include poor Americans, especially children and the elderly. Members of racial and ethnic groups also experience a disproportionate level of oral health problems. And, those with disabilities and complex health conditions are at greater risk for oral diseases that, in turn, further complicate their health.”

— U.S. Surgeon General David Satcher, M.D., Ph.D
